

PICK THE **POWERBALL**[®] WITH **POWER45**[®]

1 What is Power45[®]?

A Power45[®] entry allows players to increase their chances of winning by selecting all 45 Powerballs. As all 45 Powerballs are selected, you only have to match a minimum of two numbers from the five drawn from the first barrel to win a prize.

2 It's so easy to play!

Just ask your NSW Lotteries agent for a Standard Power45 entry and let the computer choose the numbers. If you would like to play a Standard Power45 by using an entry form, mark the Power45 option on the bottom of the form. Then select five numbers in the top panel beginning with the panel numbered '1'. Do not mark any numbers on the lower panel/s as you have already selected all 45 Powerballs when you marked the Power45 option on the entry form. A Power45 Systems entry can be selected by asking for an autopick entry, or marking the type of Systems to be played on the bottom of the entry form and selecting your System numbers in the top panel.

Prize Odds

Division	Required to win in a single game panel	Odds based on 5 numbers plus all 45 Powerballs
1	5 winning numbers + POWERBALL	1,221,759:1
2	5 winning numbers	*
3	4 winning numbers + POWERBALL	6,109:1
4	3 winning numbers + POWERBALL	157:1
5	4 winning numbers	*
6	2 winning numbers + POWERBALL	12:1
7	3 winning numbers	*

* Not applicable since the Powerball[®] is always selected with Power 45
